SUMMARY

Junior Full Stack Developer I am a motivated software developer with a passion for building scalable and efficient systems. I specialize in web development using the MERN stack (MongoDB, Express, React, Node.js) and have hands-on experience with full-stack development, mobile application development using Flutter, and robust backend systems. I excel in customizing solutions to meet client requirements, optimizing performance, and ensuring security. My goal is to leverage technology to solve complex problems and enhance productivity.

KEY ACHIEVEMENTS

Student Union Leadership

Organized 10+ events increasing student engagement by 35%.

Coding Challenge Success

Developed climate solutions improving program efficiency by 40%.

Improved Partnerships

Boosted collaboration, leading to 25% increase in project completions.
